MANAGING DIRECTOR'S STATEMENT 董事總經理報告

Review of Results (Continued)

The disposal of the Cinda Portfolio was completed in the year. Due to the reason that the total amount of actual cash recovered differs from that was projected and the adoption of the amortised cost method in accounting for the interest income from the interest in distressed assets has the effect of accelerating the recognition of more interest income in the early stages. Therefore, at the completion of the disposal, the carrying balance of unamortized interest in the Cinda Portfolio was written off and an impairment loss amounting to HK\$80,248,000 was thus recognised. During the year, the newly acquired Orient Portfolio has contributed HK\$100,220,000 profit to the Group which amount exceeded and compensated the decrease in the amount of HK\$70,534,000 in interest from the Cinda Portfolio.

Other one-off income such as the disposal of the Tongjitang ADSs upon its initial listing and the disposal of the subsidiaries engaged in property development has generated gain amounting to HK\$38,643,000 and HK\$48,499,000 respectively in the current year. After deducting the impairment loss on goodwill amounting to HK\$26,524,000 in aggregate which was made as a result of the impairment testing based on the subsidiary's future operations and the discount, which was recognised as income, of HK\$24,742,000 in the last year in respect of the acquisition of the remaining 4.11% equity interest in Beijing East Gate, the net effect of the aforesaid was to increase profit after tax by HK\$35,876,000.

Due to the reason that the cumulative appreciation of Renminbi ("RMB") in the recent years is significant and the Group has strategically maintained a lot of RMB monetary assets, as a result, the Group has recognised a significant net exchange gain in the year. Net exchange gain for the year ended 31 December 2007 has increased significantly by HK\$142,530,000 to HK\$147,380,000 (2006: HK\$4,850,000).

業績回顧(續)

信達資產包已於年內全部處置完畢，由於處置回收所得的實際現金總額少於原先預測的數額；加上計量不良資產權益利息收入所採用的攤銷成本法具有加速於投資初期確認較多利息收入的作用，故於處置完畢時，未攤銷的信達資產包權益之結餘需予註銷並且確認為減值虧損，虧損金額為80,248,000港元。年內新投資的東方資產包為本集團貢獻盈利100,220,000港元，該盈利數額超過並彌補了來自信達資產包減少的70,534,000港元利息收入。

其他一次性收入，例如年內於同濟堂首次上市時出售其部份預托證券及出售從物業開發的附屬公司分別產生收益38,643,000港元及48,499,000港元。經扣除年內就若干附屬公司以未來業務基準進行減值檢測後提撥之商譽減值虧損26,524,000港元以及上年度收購北京東環餘下的4.11%股份權益所確認為收益的收購折讓24,742,000港元後，前述各項的淨影響為增加稅後盈利35,876,000港元。

由於人民幣於近幾年累計錄得可觀的升值幅度，加上本集團策略性持有大量貨幣性質的人民幣資產，故此，本集團於年內確認大額的淨匯兌收益。截至二零零七年十二月三十一日止年度之淨匯兌收益大幅增加142,530,000港元至147,380,000港元(二零零六年：4,850,000港元)。

Business Review & Prospects

Performance, Dispositions and Management

For the year ended 31 December 2007, rental income from leasing of investment properties decreased by 27% to HK\$30.7 million (2006: HK\$42.2 million). The main reason for the decrease in rental income was due to the disposal of all the investment properties located in Hong Kong at the beginning of 2007 and an investment property located in the PRC in the second half year of 2007. The Group's main

The Group invested in the re-development of the Tong Zhou District in Beijing through its 22.62% owned associate 北京君合百年房地產開發有限公司。

The re-development project was named "Zi You Xiao Zhen", which has a site area and gross development area of 320,000 square metres and 830,000 square metres respectively. The construction works of the "Zi You Xiao Zhen" project has commenced during the year. According to the current development plan, the "Zi You Xiao Zhen" project will be developed by four phases in four years' time.

As at 31 December 2007, The Group has invested approximately HK\$484.0 million in aggregate in the "Zi You Xiao Zhen" project.

During the year, due to the holding of the coming Olympic Games in Beijing in August 2008, the municipal government discourages the commencement of construction works of new and large scale property development. In this regard, the Group suspended the "Si He Yuan" project and wait until the completion of the Olympic Games. The Group will resume the construction works soonest possible.

Cinda Jianrun

On 17 December 2007, the Group entered into a conditional agreement with three wholly owned subsidiaries of China Cinda Assets Management Corporation for the establishment of Cinda Jianrun Property Company Limited ("Cinda Jianrun") for the purpose of investing in the PRC property market. The registered capital of Cinda Jianrun is RMB1.0 billion (equivalent to HK\$1.1 billion) of which RMB300.0 million (equivalent to HK\$333.3 million) registered capital will be contributed by the Group, representing 30% of the equity interest.

物業投資、發展及管理(續)

本集團透過其持股22.62%之聯營公司北京君合百年房地產開發有限公司，投資參與北京市通州區的小區重建工作。

重建項目已定名為《自由小鎮》，其地盤面積及發展面積分別為320,000平方米及830,000平方米。《自由小鎮》項目的建造工作已於年內展開。依照目前的發展規劃，《自由小鎮》項目將會在四年時間內分開四期發展。

於二零零七年十二月三十一日，本集團於《自由小鎮》項目已累計投資約484,000,000港元。

年內，北京市因為需要配合即將於二零零八年八月份舉行的奧林匹克運動會，不鼓勵新的、大型的房地產項目展開建造工程。有鑑於此，本集團將《四合院》項目暫停並等待奧林匹克運動會舉辦完畢後，本集團將會儘快恢復及開始建設工作。

信達建潤

於二零零七年十二月十七日，本集團與三間由中國信達資產管理公司全資擁有的公司訂立有條件協議，透過成立信達建潤房地產有限公司(「信達建潤」)共同進軍中國房地產市場。信達建潤之註冊資本為人民幣10億元(約相當於11億港元)，其中人民幣300,000,000元(相當於333,300,000港元)註冊資本由本集團認繳，佔資本權益30%。

Cinda Jianrun (Continued)

Cinda Jianrun engages in the business of property development and operation, property management and property consultation in the PRC.

The investment in Cinda Jianrun constituted a connected transaction of the Group. And the Group has obtained approval from the Company's independent shareholders for the transaction on 25 January 2008.

Infrastructure Investment

During the year, profit contribution from CII decreased by 28% to HK\$54.8 million (2006: HK\$76.2 million). The reason for the decrease in profit contribution was mainly due to lack of toll fee income from road and bridge project as a result of disposal of those projects in the previous years, particularly in the last year, the disposal of the entire interest in the Jiangxi #320 State road project had generated a one-off profit of HK\$40.2 million. In addition, due to fierce competition, CII expects that the road project in the Zhoukou City of the Henan Province is expected to be operating loss in the coming few years. In this regard, an impairment loss of approximately HK\$46.1 million in respect of the project was recognised in the year. During the year, CII utilized its working capital efficiently to invest in short and medium term financial investments and succeeded in raising its interest and investment income, which has partially compensated the decrease in profit due to the aforesaid reasons.

CII is currently holding only two small road and bridge projects, with a total carrying value of approximately HK\$85.5 million.

年內來自中基的盈利貢獻減少約28%至54,800,000港元(二零零六年: 76,200,000港元)。盈利貢獻減少的原因主要是由於持續出售道路及橋樑項目後導致路費收入減少，尤其是於上年度，中基因出售江西320國道項目全部權益而獲得一次性收益40,200,000港元所致。此外，由於競爭激烈原因，中基預期位於河南省周口市的路項將虧損。而投資變成換飽券冷林卜投資聯贖弊

In this regard, the Natural Gas Projects will be disposed of in addition to the two road and bridge projects.

CII has already entered into a conditional agreement with a potential buyer to dispose of the entire interest in the Natural Gas Projects at a total consideration of RMB300,000,000. 中基已與一名潛在買家簽署有條件協議，以人民幣300,000,000元代價出售天然氣項目的全部權益，有關出售的相關文件現正送交相關的政府部門審批。交易將會於取得該審批後獲完成。

The Huarong Portfolio

The Group acquired a portfolio of distressed assets with a total principal amount of RMB36.4 billion (equivalent to approximately HK\$35.0 billion) including booked interest ("The Huarong Portfolio") from China Huarong Asset Management Corporation at a total consideration of RMB546.6 million (equivalent to approximately HK\$526.6 million at that time) in January 2006. The Huarong Portfolio comprises a total of 11,126 borrowers located in a total of 27 provinces, directly administrated municipalities and autonomies in the PRC. Originally, the Group has set a target to complete the disposal of the Huarong Portfolio in two years' time and accordingly appointed China Huarong to manage and to dispose of the Huarong Portfolio at its absolute discretion. Due to various reasons, the disposal of the Huarong Portfolio was not completed within the budgeted time. Therefore, the Group has revised the agreement with China Huarong and extended the deadline to 30 June 2008.

The progress of the disposal of the Huarong Portfolio was unsatisfactory during the year. Up to 31 December 2007, the cumulative principal amount of distressed assets in the Huarong Portfolio that has been disposed was approximately HK\$23.4 billion, representing approximately 63% of the total principal amount of the Huarong Portfolio. The cumulative cash recovered was approximately HK\$473.0 million. The effective cash recovery rate was approximately 2.0%.

華融資產包於年內之處置進度並不理想。截至二零零七年十二月三十一日，華融資產包累計已處置的不良資產之本金總額約為23,400,000,000港元，約相等於華融資產包本金總額的63%。累計已收回的現金總額約為473,000,000港元。折算所得的現金回收率約為2.0%。

MANAGING DIRECTOR'S STATEMENT 董事總經理報告

Group Strategy

The Group will allocate its investments on a reasonable and balanced basis in three core-businesses: properties investment and development, infrastructure investments and financial investments.

As for infrastructure investment, the Directors will direct CII to change its business scope and gradually commits more resources to invest in and develop the petrochemical projects.

As for property investment and development, the Group will develop its business through Cinda Jianrun and to create more returns for the shareholders of the Company.

The Directors are of the view that the recent macro economic measures imposed by the PRC Government will have a long-term effect of creating a stable and healthy market economy for the PRC. In the opinion of the Directors, those measures will not have significant adverse effect on the Group's business for the time being. However, the Directors will closely monitor the issue and will take appropriate actions should these measures be further extended and raised.

發展策略

本集團將會以合理及均衡基準分配其投資於三大核心業務：物業投資及開發、基礎建設投資及金融投資。

基礎建設投資方面，董事會將促使中基進行業務轉型並逐步投放更多資源於投資及發展石油化工方面的項目。

房地產投資及開發方面，本集團將透過信達建潤開展業務，並為本公司股東創造更多回報。

董事會認為中國政府現正實施的宏觀經濟調控措施，長遠的影響是可以為中國締造穩定且健康的市場經濟。董事會認為該等調控措施目前並無對本集團的業務帶來重大負面影

Financial Review

Exchange Exposure

At the balance sheet date, the Group had a USD denominated convertible note in the amount of USD52.5 million (equivalent to HK\$409.5 million). As HKD is pegged to USD and such currency peg is unlikely to be broken in the foreseeable future. In this regard, the Directors believe that exposure to exchange rate fluctuations in respect of USD will not have material adverse effect on the Group.

Except for the above, the Group's principal assets, liabilities, revenue and payments are denominated in HKD and RMB. The continuous appreciation of RMB exchange rate in the recent years has a cumulative effect of causing the RMB to appreciate by approximately 20%. The Group was benefited from this RMB appreciation and recognised a net exchange gain of approximately HK\$147.4 million in 2007. The Directors expect that RMB exchange rate will appreciate gradually in the next few years and the Group will be benefited from RMB appreciation. The Directors do not anticipate that there is any material exchange exposure in respect of other currencies.

財務回顧

匯兌風險

於結算日，本集團有一項以美元為計價單位的可換股票據，金額為52,500,000美元(相當於409,500,000港元)。由於港元是與美元掛鈎，而此項貨幣掛鈎政策於可預見的未來都不會解除。因此，董事會相信就美元而言，因匯率變動所引致的匯兌風險將不會對本集團構成重大負面影響。

除上文所述外，本集團的主要資產、負債、收入及支出都是以港元及人民幣為主。近年人民幣匯率持續上升並累計促使人民幣升值約20%。本集團因為人民幣的升值而得益並於二零零七年確認淨匯兌收益約147,400,000港元。董事預期人民幣匯率於未來幾年將繼續緩慢地升值，本集團並將會因為人民幣升值而得益。就其他外幣而言，董事並無預期會出現重大的匯兌風險。

For business combination that involves more than one exchange transaction through successive share purchases, each exchange transaction is treated separately, using the cost of the transaction and fair value information at the date of each exchange transaction, to determine the amount of any goodwill associated with that transaction. The acquiree's net assets are stated at fair value at the date of acquisition when control is achieved. Any adjustment to those fair values relating to previously held interests of the Group is a revaluation and is credited to other reserve.

Acquisition of additional interests in subsidiaries is recorded at the book value of the net assets attributable to the interests. The excess of the carrying amounts of net assets attributable to the interests over the cost of acquisition is recognised as discount on acquisition.

Investment in an associate

An associate is an entity over which the investor has significant influence and that is neither a subsidiary nor an interest in joint venture.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, investments in associates are carried in the consolidated balance sheet at cost as adjusted for post-acquisition changes in the Group's share of net assets of the associate, less any identified impairment loss. When the Group's share of losses of an associate equals or exceeds its interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. An additional share of losses is provided for and a liability is recognised only to the extent of the Group's share of losses in excess of its interest in the associate.

Stock of properties represents properties under development for sale and properties held for sale.

The stock of properties is stated at the lower of cost and net realisable value.

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold, securities trading and services provided in the normal course of business, net of discounts and sales related tax.

Revenue recognition (Continued)

Revenue from sale of properties in the ordinary course of business (including revenue from pre-completion contracts for the sale of development properties) is recognised when all of the following criteria are met:

- the significant risks and rewards of ownership of the properties are transferred to buyers;
- neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the properties are retained;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

The above criteria are met when the construction of relevant properties has been completed, the title of the properties has been transferred or the properties have been delivered to the purchasers pursuant to the sales agreement whichever is earlier and the collectibility of related receivables is reasonably assumed. Deposits received on properties sold prior to the date of revenue recognition are included in the consolidated balance sheets under current liabilities.

- 不再保留對物業施加如同擁有權之管理參與程度及實際控制權;
- 收益金額可以可靠地計量;
- 與交易相關的經濟利益將會流入本集團;及
- 有關交易所產生或將予產生的成本可以可靠地計量。

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. At each balance sheet date subsequent to initial recognition, loans and receivables (including interest in distressed assets, trade receivables and other receivables, amounts due from associate/jointly controlled entity/subsidiaries, restricted bank balance and bank balances and cash) are carried at amortised cost using the effective interest method, less any identified impairment losses.

Loans and receivables – Interest in distressed assets

Interest in distressed assets is stated at amortised cost using effective interest method less impairment allowance. The impairment allowances are made on the interest in distressed assets when there is objective evidence of impairment as a result of the occurrence of certain loss events that will impact on the estimated future cash flows, and is measured as the difference between the carrying amount of the distressed assets and the present value of the estimated future cash flows discounted at the original effective interest rate. Where the actual future net cash inflows are more than expected, the revised cashflow will be discounted using the original effective interest rate. The difference between the carrying amount will be adjusted to reflect the revised estimated cash flows discounted using the original effective rate. The adjustment is recognised as impairment loss in the consolidated income statement.

貸款及應收款項 — 不良資產權益

不良資產權益乃採用實際利率法以攤銷成本扣除減值撥備列賬。當有客觀佐證顯示因若干虧損事件的發生而將影響估計的未來現金流量時，則對不良資產權益計提減值撥備，並按不良資產之賬面值與採用原本的實際利率貼現估計未來現金流量之現值之差額計量。倘實際未來現金流入淨額超出預期，則經修訂之現金流量將採用原先的實際利率貼現。賬面值之間之差額將予以調整，以反映以採用原先實際利率貼現之估計經修訂現金流量。調整於綜合收益表確認為減值虧損。

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated or not classified as financial assets at fair value through profit or loss, loans and receivables or held-to-maturity investments.

At each balance sheet date subsequent to initial recognition, available-for-sale financial assets are measured at fair value. Changes in fair value are recognised in equity, until the financial asset is disposed of or is determined to be impaired, at which time, the cumulative gain or loss previously recognised in equity is removed from equity and recognised in profit or loss (see accounting policy on impairment loss on financial assets below).

For available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, they are measured at cost less any identified impairment losses at each balance sheet date subsequent to initial recognition. Such impairment losses will not reverse in subsequent periods.

可供出售之金融資產為指定可供出售的非衍生項目，或未有分類為於損益表按公平值處理之金融資產、貸款及應收賬款或持有至到期日之投資。

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, other receivables, amounts due from associates/jointly controlled entity/subsidiaries, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When other receivables, amounts due from associates/jointly controlled entity/subsidiaries are considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Impairment losses on available-for-sale equity investments will not be reversed in profit or loss in subsequent periods. Any increase in fair value subsequent to impairment loss is recognised directly in equity. For available-for-sale debt investments, impairment losses are subsequently reversed if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

Financial liabilities and equity

Financial liabilities and equity instruments issued by a group entity are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities. The Group's financial liabilities are generally classified into financial liabilities at fair value through profit or loss and other financial liabilities.

Effective interest method

The effective interest method is the method of calculating the amortised cost of a financial asset or liability and of allocating interest income or expense over the expected life of the financial asset or liability. The effective interest rate is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial asset or liability (or until maturity, if earlier) at the net carrying amount of the financial asset or liability at the end of each reporting period.

- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and HKAS 39 permits the entire combined contract (asset or liability) to be designated as at fair value through profit or loss.

The convertible note with embedded derivatives whose economic risks and characteristics are not closely related to those of the host contract (the liability component) as a whole is designated as financial liabilities at fair value through profit or loss on initial recognition.

4. Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet dates, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Estimated impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating unit to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, an impairment loss may arise. As at 31 December 2007, the carrying amount of goodwill is approximately HK\$7,001,000 (2006: HK\$33,525,000). Details of the recoverable amount calculated are disclosed in note 18.

4. 估計不確定之主要來源

以下是於結算日關於對未來的重要假設及其他估計不確定的主要來源，該等假設及估計存在可能導致下一個財政年度的資產及負債之賬面值有重大調整風險。

估計商譽減值

釐定商譽是否出現減值時須估計商譽所獲分配之現金產生單位使用價值。本集團計算使用價值時需就預期源自該現金產生單位之未來現金流量及合適之貼現率作出估計，以計算現值。倘若實際的現金流入少於預期，可能會引致減值虧損。於二零零七年十二月三十一日，商譽之賬面值約為7,001,000港元(二零零六年：33,525,000港元)。計算可予收回金額之詳情於附註18披露。

4. Key source of estimation uncertainty

(Continued)

Estimated cash flows of the distressed assets and investment in distressed assets through establishment of a special purpose vehicle

As at 31 December 2007, the carrying amounts of interest in distressed assets and investment in distressed assets through establishment of a special purpose vehicle were nil (2006: HK\$199,931,000) and HK\$107,191,000 (2006: nil) respectively. Determining the recoverability of interest in distressed assets and investment in distressed assets through establishment of a special purpose vehicle requires an estimation of the future cash flows, including cash inflows arising from recoveries, disposal or collection, and cash outflows arising from directly attributable transaction cost such as management fee and incentive bonus. Where the actual future net cash inflows are less than expected, an impairment loss may arise. Where the actual future net cash inflows are more than expected, a gain will be recognised. During the year ended 31 December 2007, an impairment loss of HK\$80,248,000 (2006: nil) was recognised in respect of interest in distressed assets. Details of the interests in distressed assets and investment in distressed assets through establishment of a special purpose vehicle are disclosed in notes 30 and 31 respectively.

4. 估計不確定之主要來源(續)

估計不良資產及通過成立特殊目的載體投資不良資產現金流量

於二零零七年十二月三十一日，不良資產權益及通過成立特殊目的載體投資不良資產之賬面值分別為零(二零零六年：199,931,000 港元)及 107,191,000 港元(二零零六年：零)。釐定不良資產權益及通過成立特殊目的載體投資不良資產之可回收性需要對未來現金流量(包括回收、出售或收集所產生之現金流入及管理費用與獎勵花紅等直接相關的交易成本所產生之現金流出)作出估計。倘實際未來現金流入淨額較預期數額少，則可能導致減值虧損。倘實際未來現金流入淨額較預期數額多，則會收益可予確認。於截至2007年12月31日止年度，已就不良資產權益確認一項減值虧損80,248,000 港元(二零零六年：零)。不良資產權益及通過成立特殊目的載體投資不良資產之詳情分別載於附註30及31。

The Group has not used any interest rate swaps in order to mitigate its exposure associated with fluctuations relating to interest cash flows. However, the management monitors interest rate exposure and will consider other necessary actions when significant interest rate exposure is anticipated.

Equity securities

The Group is exposed to equity securities price risk through its available-for-sale investment (other than investment in distressed assets through establishment of a special purpose vehicle) and held-for-trading investments. For convertible note at fair value through profit or loss, in addition to fair value interest rate risk, the Group is also exposed to security price risk in respect of the conversion option embedded in the convertible note which allows the note holder to convert to the Company's ordinary shares. However, in the opinion of the directors, the impact on fair value of the embedded option due to change in Company's share price and share price volatility is not considered as significant, hence the price risk exposure in this regard is limited and has not been included in the sensitivity analysis below.

Fair value

The fair value of financial assets and financial liabilities are determined as follows:

- The fair value of financial assets and financial liabilities (including derivative instruments) with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market bid prices and ask prices respectively; and
- the fair value of other financial assets and financial liabilities (including derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions. For an option-based derivative, the fair value is estimated using an appropriate option pricing model (for example, the binomial model).

The directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the financial statements approximate their fair values.

公平價值

金融資產及金融負債之公平值的計量如下：

- 擁有標準條款及條件並且於一活躍及流動性強的市場買賣之金融資產及金融負債(包括衍生工具)之公平值是分別參考市場賣出及買入報價而釐定；及
- 其他金融資產及金融負債(包括衍生工具)是根據通行的計價模型以當時公開的市場交易之價格基於折現現金流分析之而釐定。至於以期權為基準的衍生工具，其公平值採用合適的期權計價模型(例如二項製模型)估算所得。

董事認為以攤銷成本法紀錄於財務報表的金融資產及金融負債之賬面值與它們之公平值相符。
